

ART & DIE REQUIREMENTS - JOURNALS & PLANNERS

ART FOR 4-COLOR PRINTED COVERS

The artwork should be submitted as CMYK (four-color process) at the actual size of the product. Any logos and type should be submitted in vector format with all fonts converted to outline. Logos submitted without additional art will be printed on a white cover. When vector files are not possible, raster files of text or logos will be accepted at the actual printed size using a resolution of 900—1200 dpi. The color mode needs to be solid (bitmap). Any photo images should be at least 300 dpi at the actual printed size. Nonbleeding content should be at least one-half inch (½") away from the final trim size of the product. Acceptable file formats include .ai, .ps, .eps, .psd, .tiff, and .pdf.

Submit art by email to: art@sungraphix.com

PRINTING

File Formats: PDF files are to be set for "Press Quality" or "High Quality Print" with all fonts embedded or converted to outlines. The acceptable file formats include .ai, .ps, .eps, .psd, .tiff, and .pdf. All images should be at a resolution of at least 300 dpi at actual print size. Packaged files including the fonts and images from InDesign® or Quark™ may also be accepted.

Fonts: All fonts should be converted to outlines, embedded, or submitted with the artwork. Fonts that are not converted to outlines, embedded, or submitted with the art will be replaced with fonts from our in-stock library. If file alteration is necessary, all fonts must be submitted with the artwork.

BEST PRINTING PRACTICES

- Colors may be CMYK or PMS; however, extra charges may be incurred for an exact PMS match.
- Artwork must be in the correct orientation (landscape or portrait) to fit the product including the bleed. Templates are available.

STAMPING - Foil decorating or embossing

File Formats: Vector art created in Adobe® Illustrator® (.ai, .pdf, .eps) is preferred. All elements of the artwork should be solid black. Raster (.psd, .tiff) artwork may be accepted with a resolution of at least 900–1200 dpi at actual stamping size and must be solid black.

Fonts: All fonts should be converted to outlines, embedded, or submitted with the artwork. Fonts that are not converted to outlines, embedded, or submitted will be replaced with fonts from our in-stock library. Fonts should be sans serif for best quality and at least 12 point. If file alteration is necessary, all fonts must be submitted with the artwork.

How SunGraphix™ is working to minimize environmental impact

Cleaner, Greener Inks

All of our inks are vegetable oil-based, a renewable resource.

Recycled Paper Choices

We use recycled paper containing 50% post-consumer fiber to protect the environment. Our paper is also acid-free. This environment-friendly approach means the paper color will not change over time.

Wind Energy

This catalog was printed with 100% wind generated power.

Paper Conservation

We use virtual proofs to use less paper and provide our clients with color-rich electronic proofs in the most efficient way possible.

Press Technology

Increased use of digital printing means less chemicals, less paper, and a lesser overall environmental impact.
